

REMARKS

Examination is respectfully requested in view of the above preliminary amendments and following remarks.

5

Disposition of Claims

Claims 1-21 remain pending in the instant application.

Amendment to the Specification

10 Pages 18 and 21 were amended to add the respective reference numbers, 100 and 110, for the power supply. The Applicant avers that no new matter has been added by virtue of these amendments.

15 **Amendment to the Claims**

Claims 1, 2 and 4-12 have been amended to distinctly claim what the Applicant considers as his invention. The Applicant avers that no new matter has been added by virtue of these amendments.

20

Drawings

25 The Applicant concurrently submits herewith a correction to the drawings. In particular, the FIG. 2 has been amended to change reference number 18 to correctly read 29 as recited in the specification. Accordingly, the Examiner is respectfully requested to approve the amendment to FIG. 2.

Conclusion

30 By the present amendment, the Applicant has amended the specification and figures in order to correct informalities therein. In addition, the Applicant has amended the claims in

order to distinctly claim what the inventor considers as his
invention. The claims recite structural elements neither taught
nor suggested in the cited prior art and to make clear the
manner in which these elements cooperate to provide the unique
5 advantages of the present invention.

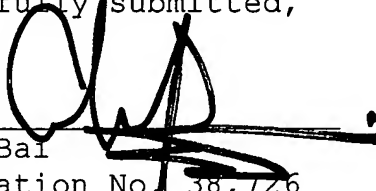

Accordingly, the application is believed to be in a
condition for allowance and expeditious notice thereof is
earnestly solicited. Should the Examiner have any questions,
10 comments or suggestions which would place the application in
still better condition for allowance, he is respectfully
requested to call the undersigned attorney collect.
